

**MARYLAND HISTORICAL TRUST ADDENDUM SHEET
STATE HISTORIC SITES INVENTORY FORM**

Resource Name:	Brick House and Store Complex
Address:	Southwest Corner of MT. Aetna Rd and MD 66 (Mapleville Rd)
Owner:	Mt. Aetna Volunteer Fire Co. Inc, 10305 Crystal Falls Dr Hagerstown, MD 21742
Year Built:	1872

7. DESCRIPTION

A 2000 survey discovered that the brick house and store had been demolished. A review of the tax map indicated that Harold Higman had sold the land parcel to the Mt. Aetna Volunteer Fire Company and, according to area residents, the house and store were torn down around 1990. Currently, only remnants of stone foundation walls and an adjacent property wall remain visible at grade. The area contains mowed lawn with small ornamental trees and shrubs; a slight cellar depression is visible within the foundation walls.

ABSTRACT

WA-II-153

Late 19th Century

Brick House and Stone Complex

Mt. Aetna-Hagerstown Vicinity

private

This complex of brick buildings located at a rural crossroad's community known as Mt. Aetna would appear to date from the third quarter of the 19th century or later. Present is a two story, two bay brick house with an attached kitchen wing dated 1872 and a brick commercial building which appears to have been used at one time as a store. They are typical vernacular period structures.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This brick house and adjacent store building are located at the corner of Mt. Aetna Road and Maryland Route 66 at the settlement of Mt. Aetna, southeast of Hagerstown in Washington County, Maryland. The buildings face east.

The house is a two story, two bay brick structure resting on low fieldstone foundations. Attached to it is a one story, two bay kitchen extension. Bricks forming the walls are laid in American or common bond at all elevations with numerous courses of stretchers between header rows. The surface of the building has been painted red.

Windows and doors have narrow frames with broad wooden lintels. At the front elevation these lintels have applied trim resembling dentils. In the front windows of the main section two over two pane sashes with arch topped upper panes are used. In the east slope of the roof of the wing is a small gable roofed dormer with decorative woodwork in its gable area.

The principal entrance is located in the southernmost bay of the east wall. A door with glazed upper section is held within a frame which does not include a transom. A second entrance very similar in appearance enters into the kitchen wing. A small gabled hood supported by brackets has been added to the front door. A shed roofed porch with chamfered square posts extends along the front of the wing.

The roof is sheathed with sheet metal and terminates with barge boards set directly against the end walls. The eaves boxing at the front elevation is trimmed with decorative dentiling matching that above the windows and doors. Brick chimneys are located inside the end walls. The flue inside the kitchen wing has been extended well above the roof to allow for proper draw.

A date stone set in the north gable of the main section is inscribed with the year 1872.

Immediately south of the house is a one and a half story brick building with a gable end front facing the road. It is constructed in common bond with a slate roof and has a wide entrance way with double doors and large glass windows on either side. It would appear to have been built as a commercial building.

The structures seem to be in good condition.
